

Location:

Winnipeg Capital Region, St. Andrews Airport district

Building Science Engineer, P.Eng.

At DGH Engineering (DGH) we are leaders in building performance, sustainable design, and practical engineering solutions. Our work helps clients across Canada improve energy efficiency, extend the life of their buildings, and meet sustainability targets. From new construction to retrofits and condition assessments, our team combines technical expertise with client-focused service to deliver projects that perform.

YOUR ROLE

In this role, you will combine technical expertise and leadership to deliver building science projects from design through construction while helping drive the growth of our service line.

You will work on a range of projects including new construction, retrofits, building condition assessments, and certification support (e.g., BOMA).

WHAT YOU'LL DO

- Lead projects in building design, third-party design reviews, commissioning, and construction services
- Review design documents, shop drawings, and submittals for compliance with best practices
- Manage the preparation of contract drawings and specifications
- Confirm systems are built to approved design documents
- Assess existing buildings and preparing detailed assessment reports
- Review and write proposals, pursue business development opportunities

REQUIREMENTS

- Bachelor's degree in Engineering with extensive experience in Building Sciences
- Professional Engineer (P.Eng.) licensed in Canada
- 4-7 years of relevant experience
- Strong technical writing and communication skills.
- Must possess a valid driver's license for a passenger vehicle

KNOWLEDGE, SKILLS, AND ABILITIES

- Strong verbal and written communication skills, and a willingness to function in a team-based environment
- Aptitude for and general understanding of building construction methods and procedures
- Client management expertise

WHY WOULD YOU WANT TO WORK AT DGH?

- Competitive compensation package
- Robust health benefits - Health Care Spending Account for flexible coverage tailored to your individual needs
- Employer-supported retirement savings plan
- Opportunities for professional growth and career development
- Exposure to diverse projects
- Collaborative environment where your work directly contributes to client success

ABOUT US

DGH is a full-service integrated design firm delivering design, engineering, and construction management services. We provide comprehensive design services, including civil, structural, mechanical, electrical, and industrial design and engineering.

Submit Resume:

hr@dghengineering.com

Please send resume in **PDF file format**. While we thank all applicants for their interest, only those selected for an interview will be contacted.
