

Location: Winnipeg Capital Region, St. Andrews Airport district

Building Code Technologist

As a Building Code Technologist, you will participate in building code compliance activities. You will collaborate multi-disciplinary teams regarding code and compliance issues of new and renovated buildings.

Good communication skills, blueprint reading, and the ability to read and interpret the building code is required. A valid driver's license is prerequisite to join our team.

REQUIREMENTS

- Graduated from a three-year Architectural Engineering Technology program from a recognized post-secondary institution.
- Eligible for registration with The Certified Technicians & Technologists Association of Manitoba (CTTAM) or The Architectural and Building Technologists Association of Manitoba (ABTAM).
- Must possess a valid driver's license for a passenger vehicle
- Technical knowledge of building construction and the Manitoba Building Code
- An aptitude for and general understanding of building construction methods and procedures, and building systems.
- Hands-on experience or general construction experience is an asset.

YOUR KEY RESPONSIBILITIES

- Ensure designs comply with building code regulations, client specifications and company quality standards.
- Prepare comprehensive documentation, work closely with drafting technicians on building plans.
- Maintain a database of processes and technical specifications
- Review and prepare notices on changes and proposed changes to the building code.
- Prepare specifications, tender and construction documents and reports.
- Compose technical reports as required.
- Conduct on-site reviews of construction and renovation projects, in order to observe and evaluate the progress and quality of the work being performed.
- Assist in project coordination.
- Availability for short-haul travel to project sites in various weather.

ABOUT US

DGH is 100 % Canadian owned by a group of dedicated employees who are committed to providing work that consistently achieves a level of excellence in meeting client needs.

DGH is a full-service integrated building design firm delivering design, engineering and construction management services. We provide comprehensive building design services where desirable, or specific discipline design as part of project teams with other professionals or trade contractors.
