

Location: Winnipeg Capital Region, St. Andrews Airport district

Mechanical Technologist, CET

DGH Engineering (DGH) is seeking a Mechanical Technologist to join our team.

Mechanical design responsibilities will include the design of building mechanical systems including sewer, plumbing, HVAC and hydronic heating. In addition, you will participate in construction quality control activities including interim construction site inspections and commissioning of mechanical systems and equipment. Assignments will include a wide range of new and renovated residential, commercial, industrial and agricultural buildings.

REQUIREMENTS

- Graduated from a three-year Mechanical Engineering Technology program from a recognized post-secondary institution.
- Eligible for registration as a Certified Engineering Technologist (C.E.T.) with The Certified Technicians & Technologists Association of Manitoba (CTTAM).
- Must possess a valid driver's license for a passenger vehicle
- An aptitude for and general understanding of building construction methods and procedures, and building mechanical systems.
- Hands-on experience with installation of building mechanical systems and/or general construction experience is an asset.

YOUR KEY RESPONSIBILITIES

- Provide mechanical design services for new and renovated buildings.
- Prepare specifications, tender and construction documents and reports.
- Compose technical reports as required.
- Conduct on-site reviews of construction and renovation projects, in order to observe and evaluate the progress and quality of the work being performed, and assist in equipment commissioning at completion.
- Assist in project coordination.
- Availability for short-haul travel to project sites in various weather.

ABOUT US

DGH is 100 % Canadian owned by a group of dedicated employees who are committed to providing work that consistently achieves a level of excellence in meeting client needs.

DGH is a full-service integrated building design firm delivering design, engineering and construction management services. We provide comprehensive building design services where desirable, or specific discipline design as part of project teams with other professionals or trade contractors.

Submit Resume:

hr@dghengineering.com

Please send resume in **PDF file format**. While we thank all applicants for their interest, only those selected for an interview will be contacted.
