

Location: Winnipeg Capital Region, St. Andrews Airport district

Mechanical and Electrical Quantity Surveyor

Seeking an experienced Mechanical and Electrical Quantity Surveyor to support cost planning, construction estimating, and procurement.

This role is suited to a professional with deep knowledge of mechanical and electrical building systems, strong written communication skills, and practical estimating and cost management experience. A CEC or PQS designation from the Canadian Institute of Quantity Surveyors is a strong asset.

What You'll Do

- Prepare quantity take-offs and detailed cost estimates for mechanical and electrical systems at various stages of design
- Develop cost plans, budgets, and opinions of probable construction cost
- Review drawings and specifications to interpret design intent and identify cost implications
- Analyze contractor bids and assist with tender evaluation and procurement processes
- Provide cost analysis, value engineering input, and cost control recommendations during design development
- Support preparation of tender documents and scopes of work in coordination with design teams
- Review and evaluate change orders, claims, and construction cost adjustments
- Monitor project costs during construction and provide cost reporting and forecasting
- Maintain cost databases and contribute to the development of estimating standards and templates
- Remain current with construction methods and evolving industry standards
- Support constructability reviews, and quality control
- Support proposals, project planning, and business development activities

REQUIREMENTS

- 10–15 years of experience in construction documentation, estimating, or related consulting roles
- PQS or CEC designation (or working toward) considered a strong asset
- Demonstrated experience in construction cost estimating
- Must possess a valid driver's license for a passenger vehicle

KNOWLEDGE SKILLS, AND ABILITIES

- Strong technical writing and editing skills
- Excellent attention to detail and organizational ability
- Excellent English written and verbal communication skills

WHY WOULD YOU WANT TO WORK AT DGH?

- Competitive compensation package
- Robust health benefits - Health Care Spending Account for flexible coverage tailored to your individual needs
- Employer-supported retirement savings plan
- Opportunities for professional growth and career development
- Collaborative environment where your work directly contributes to client success

ABOUT US

DGH is a full-service integrated design firm delivering design, engineering, and construction management services.

HOW TO APPLY

Please send resume in **PDF** file format.

While we thank all applicants for their interest, only those selected for an interview will be contacted.
