

Location: Winnipeg Capital Region, St. Andrews Airport district

Structural Engineer, P.Eng.

DGH Engineering (DGH) is seeking a Professional Structural Engineer (P.Eng.) to join our team. In this role, you will train in providing structural design in multi-discipline projects from the concept stage through to completion as part of an integrated team. You will have involvement in preparing studies, designs, cost estimates, specifications, and contract documents and will also participate in scheduling, budgeting, tendering, site reviews, construction support and contract administration for structural projects.

At least 2+ years experience in the capacity of a licenced professional structural engineer (P.Eng.) is required.

RESPONSIBILITIES

- Provide structural design for small, medium and large multi-discipline projects through its entirety for each project.
- Designs will include a mix of wood, steel, and concrete design requirements in support of new and renovated residential, commercial, industrial and agricultural buildings.
- Participate in and coordinate job costing and delivery of fee proposals to clients.
- Schedule required resources for all assigned projects. Monitor actual resource usage and deadlines; take action to correct cost over-runs and delays in completion.
- Mediate and resolve disputes and problems with clients, contractors, and regulatory officials.
- Provide support to electrical, mechanical and other disciplines in the development of design documents.
- Conduct on-site reviews of construction and renovation projects, in order to observe and evaluate the progress and quality of the work being performed.
- Periodically travel to project sites on an as required basis for ½ day or 1-day site visits.

REQUIREMENTS

- Bachelor's degree in Civil or Structural Engineering
- Ideal candidate will have 2 – 10 years experience in the capacity of a licenced professional structural engineer
- Current Engineering P.Eng. designation with Engineers Geoscientists Manitoba (EGM) or the ability to promptly obtain P.Eng. designation from EGM
- Must possess a valid driver's license for a passenger vehicle

KNOWLEDGE, SKILLS AND ABILITIES

- Experience dealing with contractors
- Strong verbal and written communication skills, and a willingness to function in a team-based environment
- Proven ability to work with minimal oversight and demonstrated self-initiative
- Well-developed client management skills
- Aptitude for and general understanding of construction methods and procedures

ABOUT US

DGH is 100 % Canadian owned by a group of dedicated employees who are committed to providing work that consistently achieves a level of excellence in meeting client needs.

Submit Resume:
hr@dghengineering.com

Please send resume in **PDF file format**. While we thank all applicants for their interest, only those selected for an interview will be contacted.
