Mechanical Drafting / Design Technologist

DGH Engineering (DGH) is seeking a Mechanical Drafting / Design Technologist to join our team.

Duties will include the design and drafting of building mechanical systems including sewer, plumbing, HVAC and hydronic heating. Responsibilities include mechanical assessments of commercial, industrial and agricultural buildings, and detailed design of building mechanical systems. A good working knowledge of Revit and AutoCAD is required.

REQUIREMENTS

- Graduated from a two or three-year Mechanical Engineering Technician/Technologist program from a recognized post-secondary institution
- Eligible for registration with The Certified Technicians & Technologists Association of Manitoba (CTTAM)
- Must possess a valid driver's license for a passenger vehicle
- Minimum three years of experience in mechanical with demonstrated technical abilities (Revit, analysis, code and regulation reviews, design calculations, technical report writing.)
- Aptitude for and general understanding of building construction methods and procedures

YOUR KEY RESPONSIBILITIES

- Participate in mechanical design work through its entirety for each project.
- Provide mechanical design drafting of small to large multi-discipline projects.
- Working in a team environment, you will prepare tender and construction documents and reports.
- Prepare technical reports as required.
- Complete field inspections for design and construction phases of the project.
- Assist in project coordination.
- Availability for short-haul travel to project sites in various weather conditions on an as required basis.

ABOUT US
